

# My Tryst with PC

## Individualising Examinations of PC-Cancer and PC-AIDS

Chetna Shukla, India

§ 4 – “He is likewise a preserver of health if he knows the things that derange health and cause disease, and how to remove them from persons in health.” (Translation by Boericke)

§ 4 – “He is likewise a sustainer of health if he knows things that disturb health, that engender and maintain disease, and is aware of how to remove them from healthy people.” (Edited by Brewster O’Reilly)

### Introduction

Do we in homeopathy have something to offer for sustaining, preserving health? Can we with assurance offer prophylaxis and an equally effective therapy for all diseases?

I was faced with one such problem. Two of the people who were dearest to me got ‘contaminated’ with the modern epidemic of Cancer. They chose homeopathy over chemotherapy, radiation and surgery. They were in the care of physicians known to heal Cancers with homeopathy (First Simillimum), on a supportive diet, castor oil therapy for tumours, and yoga regime.

I was in search of a “*Sanjivani*” (a medical boon) for them. During this time I was reading (Healing Miracles of) Edgar Cayce who said: “A wise healer uses everything that works.”

With doubts and fears in my mind regarding the working of PC-Cancer I *thought* myself wise and administered the PC remedy to them till they commenced their dignified journey into a world beyond ours. I knew from their countenance that the PC did work at some level. This claim was not supported by scientific inquiry and experi-

mental verification (it had only clinical results to back the action). In homeopathy symptom similarity is central to the curative method. Only a proving would validate Peter Chappell’s claims and my observations of the effects in the system of my dear ones. I felt a call to prove the PC-Cancer remedy (in 2006) and later that for PC-AIDS (in 2007).

### The Individualising Examination of PC-Cancer (PC140c)

(Single blind; 7 provers; 5 male and 2 female)

**The major themes that surfaced**  
(That which is curative in PC-cancer)

*Extreme behaviour/Lack of Control*

- Impulse to bang my head. I have an injury mark. If you can harm yourself, it

proves to what extent you are serious (P1).

- I literally shouted and screamed (P2).
- I fought – something I have never done before (P5).
- I usually get angry very easily but now I feel I can control myself (P6).

*Dictating*

- It is like... like rules, that you have to follow... follow this and follow that! (P1)
- Dream: ...“ask him to sit here” in a very authoritative tone (P2).
- They only order me, don’t consider me and I don’t like it now (P5).

*Danger*

- Dream danger from water (P3).
- Sea energy has tremendous power to cause destructive tsunamis (P3).
- Dream: Thunderstorm with earthquake (P3).

*Cancer*

- Family history of Cancer in provers attracted to the proving: P2 (aunt: Breast cancer), P3 (mother: Ovarian cancer), P6 (aunt: Breast cancer), P7 (mother: Ovarian cancer)
- It is an inner “self” conflict! Between two extreme thoughts: freedom to decide and imposition (P1).
- It is like in Cancer: one/few cells misbehave and all the cells suffer the brunt of chemotherapy! Other cells are not guilty but they have to suffer despite not having done anything wrong, despite not having misbehaved! (P4, P6)

### S U M M A R Y

The need for a scientific inquiry led me into an Individualizing Examination of two PC remedies (Cancer and AIDS) designed by Peter Chappell. I can now validate the claim that PC remedies are Homeopathic Disease Specific. The gestalt that surfaced in the PC-Cancer proving was archetypal for Cancer and that of PC-AIDS for AIDS. Like any other proving this is not complete because the whole of the elements of the disease that PC-Cancer/AIDS can/is capable of producing can only be brought to anything like completeness by numerous observations (§ 135) to the point where subsequent experimenters can notice little of a novel character from its action, and almost always only the same symptoms as had been already observed by others. But these first provings convince me beyond doubt that they have a definite sphere of action. The emerged image talks of an energy pattern similar to that of the usual disease images of respective diseases (call it prototype or archetypal) which makes the remedies homoeopathic for these diseases.

**KEYWORDS** PC remedies, Provings, Preserver of Health, Homeopathic Specifics, Epidemic diseases

- I will die of cancer! If I have hoarseness then I think of throat cancer, cancer of larynx! (P6)

#### Exhaustion

Sweets/Sugar, Craving for

#### Sensitive

### The disposition of PC-Cancer

It is seen in the proving in the state of (altered) disposition of the mind as in extreme behaviour/lack of control. The other theme is regulation itself (laws/dictating/order). The other facets are danger and craving for "sugar" on which the cancer cells thrive. And the USP (Unique Symptom for Portrait) is "Cancer" itself. The provers who unconsciously got drawn to this proving have a family history of Cancer and the ones that did not have but still were a part of this experience connected their altered state to the Cancer disposition itself (which is as P1) says... "An inner conflict between two extreme thoughts: Freedom to decide and imposition!"

Therefore I validate the claim that PC-Cancer is a homeopathic disease specific remedy for Cancer!

## The Individualising Examination of PC-AIDS (PC1)

(Single blind; 6 provers; 2 male and 4 female)

### The major themes that surfaced

(That which is curative in PC-AIDS)

#### Love, sex

- I feel the need for an intimate friend (P5).
- Marriage has become a question (P4).
- Dream that I am getting married (P6).

#### Attractiveness

- I feel no need for sexual attraction (P4)
- I am conscious of my physical appearance (P5)
- Desire to be naked (P6)
- I feel very conscious of how I look (P6)

#### Unnatural sex

- It is kind of voyeuristic (P1) Ivan the Terrible, the king (P3, P1)
- Count Dracula (P1)

- The indulging in different kinds of sex play that is not natural (P4)
- There is too much sex on my mind. It can lead to rape and crime (P6)

#### Love cruelty

- Ivan the Terrible, the king (P1)
- Count Dracula (P1)
- I want to kill him by strangling him (smiling) and leaving his dead body somewhere in his house (P6)

#### Food

- Desire coffee, brewing coffee, cappuccino (P1)
- Desire sev puri (Indian street snack), milk chocolates (P3)
- Desire pav vada (Indian burger), salt, lemonade (P4)
- Desire onions, tea buttermilk (P5)
- Desire spicy food (P6)
- Desire juices, chocolates, coffee (P6)
- Urticaria (P1) (P5) (P6)

#### Terminal stages/incurable

- Dream: I see my mother... as if in her end stage of life suffering from an incurable disease (P1)
- Dream: ...cancer of a certain type of white cells... Such an innocent boy, already has an incurable disease (P2)
- She would die any moment (P3)

#### Pelvic affinity

- Pain in the hypogastria as if menses would appear (P2)
- Furuncle in genital area (P3)
- ... the uterus, the pelvis is sore (P4)
- A foul-smelling vaginal discharge (P4)
- Pain in the testes upwards along the spermatic cord (P5)
- Orange-coloured mucus discharge from vagina (P6)

#### Mood depressed/cheerful

- Melancholic (P1)
- Alternated between cheerful and gloomy (P3)
- "I don't care", "I am in my own world" (P4)
- Cheerful (P5) (P6)

#### Abdomen

- As if I had peptic ulcer (P1)
- As if my intestines were being twisted, clothes being wrung (P2)
- As if a load or a stone (P5)

#### Legs/Calf muscles cramps (P3) (P2) (P4)

#### Small/miniscule/worthless

- There are so many good doctors in homeopathy and I am a "miniscule" particle (P1)
- We have no worth (P6)

### The disposition of PC-AIDS

It is seen in the proving in the state of (altered) disposition of the mind as in the theme of sexuality associated with attractiveness, marriage, betrayal and cruelty, and unnatural sex. The same is reflected in the body as bodily symptoms that develop around the pelvic organs (the uterus, vaginal discharge, spermatic cord). And the USP (Unique Symptom for Portrait) is unnatural sex, too much sex that can lead to crimes and rape, impure sex (with foul discharges) with a resultant illness that is an image of a terminal sickness wherein one cannot do anything.

Therefore I validate the claim that PC-AIDS is a homeopathic disease specific remedy for AIDS!

Do we need homeopathic specifics?

Jung has laid emphasis on the universal character of the Collective Unconscious: "...it has contents that are more or less the same everywhere and in all individuals. It is in other words identical in all men and thus constitutes a common psyche substrate of a supra-personal nature that is present in every one of us." This is true in health and in altered state of health (disease). (I follow his techniques if I need to ask special questions only after voluntary narration is over.)

There is a Collective Unconscious in health and of diseases too. Diseases although specific to an individual have a Collective Unconscious such that they have symptoms (contents) that are more or less the same everywhere and in all individuals. Each disease has a common psyche substrate of a supra-personal nature that is lived by every sick person who suffers from that particular disease!

This happens in what are termed epidemic diseases.

In § 100 (6th edition), regarding the investigation of epidemic diseases Hahnemann says...

"In investigating the totality of the symptoms of epidemic or sporadic diseases it is quite immaterial whether or not some-

thing similar has appeared in the world before under the same or any other name... with the exception of those epidemics resulting from a contagious principle that always remains the same, such as smallpox, measles, etc.”

In § 101 he continues...

“... as it is only by a close observation of several cases of every such collective disease that he can become conversant with the totality of its signs and symptoms. The carefully observing physician can, however, from the first and second patients, often arrive so nearly at a knowledge of the true state as to have in his mind a characteristic portrait of it, and even to succeed in finding a suitable, homeopathically adapted remedy for it.”

... approximating to a homeopathic specific remedy for that disease.

An epidemic “is a disease prevalent among a people or community (common character) at a special time, and produced by some special causes not generally present in the affected locality”. Many epidemic diseases are believed by the medical community to have been eradicated! In reality the same disease now displays itself, to the champions of medicine, as another morbid form and is then called a new disease altogether. But they still remain epidemic.

Some of these so-called new diseases are Cancer, AIDS, Hepatitis, Diabetes, Obesity, Hypertension, IHD, Multiple Sclerosis, Vaccinosis and many others that are created by our modern lifestyle: exposure to toxic substances (carcinogens, carbon fumes, aerosols), fatty diets, colas, refined foods, bombardment with electronic radiation, high doses of stress, and viruses, among other things. The unique symptom portrait (USP) of these diseases is that they may be life-long in duration.

Our physical body is subject to all natural laws as well as material desires and needs. It is regulated by conditions created by the collective mind-set of the body towards things, conditions, circumstances of a spiritual, mental and a material nature. In the physical being, we find conditions that are of a physical nature that have become subject to purely material influences and allow the creating and accumulation of poisons in the system with an elimination process far slower than its accumulation that deranges health.

At that moment the body fails to maintain harmony. These disease-specific PC remedies as a Second simillimum can assist the Life Principle in self-preservation!

The reports above are just a summary of the provings. Those interested in the full proving can write to the author.

Meanwhile several PC remedies have been developed for specific types of cancer, and PC1 is available specifically for non-western-men (PC1AM) and non-western-women (PC1AF). For AIDS in the West a specific remedy called PC1HW has been designed (see [www.vitalremedies.com](http://www.vitalremedies.com)).
